DETAILED ACTION

The application has been reviewed by Ms. Christine Tierney, the advisory action and the final Office action are hereby withdrawn and a new ground of rejection will be cited, below:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(f) he did not himself invent the subject matter sought to be patented.

Claims 22-27, 31-34, 41 and 42 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter.

Claims 35-36 and 43 are rejected under 35 U.S.C. 102(f) because the applicant did not invent the claimed subject matter. ***.

The Zook et al (6,525,168) discloses the formula of a polythioether composition (see Abstract and at col. 2, line 25 et seq.), which is read on the instant claims 22-27, 31-34, 41 and 42.

The Zook et al (10/368,135 now U.S. Patent 6,723,827) discloses a curable composition (see claim 9 and related claims), which is read on the instant claims 35-36 and 43.

The instant claims are read on the teachings of the references.

The instant application and the cited prior art have two common inventors, Jonathan D. Zook and Davis W. Jordan and the application has four different inventors. Therefore, how others such as Susan E. DeMoss, Chandra B. Rao, Hakam Singh and Ahmed Sharaby have contributed to the claimed subject matter?
